

TOPPIK

HAIR BUILDING FIBERS

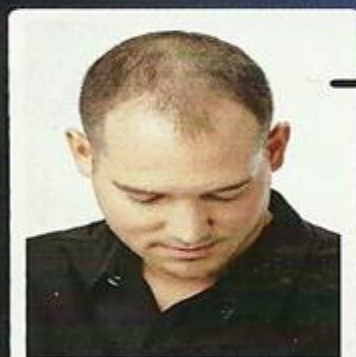

The **30** second
Transformation!

Advanced hair solutions for men and women

Toppik microfibre hairs are the perfect solution!

Are you looking for a simple and affordable hair loss treatment?

Toppik is a safe and natural way to eliminate the appearance of balding and thinning hair. It's not a spray, cream or cover up.. but is an easy-shake container full of small keratin fibres (the same material that your hair is made from). They bind with your natural hair and stay put through wind and rain! It's unlike anything you've ever seen before!
